SUMMARY

❖ **3+ Years of experience** in **Front-end development**

❖ Single Page Applications (SPAs) using JavaScript frameworks **React JS and Redux.**

❖ UI web applications using **ES6, JavaScript, HTML5, CSS3,**

❖ Mobile applications using **React Native**

❖ SDLC and Agile development methodologies (**SCRUM**). Daily SCRUM meetings to track Project Deliverable statuses and issues (using JIRA).

❖ Experience in the web development to satisfy the client requirement.

❖ Good Web Application debugging skills using Chrome Developers Tool.

SKILLS

Frontend Library/Frameworks:
React JS, React Native

Web Technologies:
HTML5, CSS3, JavaScript & ES6

CSS Frameworks:
Post CSS

Bug Tracking:
JIRA

EXPERIENCE

- SPK Hasten Tech, Pondicherry, **Software Engineer** from August 2021- present.

EDUCATION

Bachelors of Technology (CSE)   70%   Pondicherry University.

PROJECTS
Helpdesk

This Project is Internal Management System about Tracking Employee details and status.
